Tel ; 1800 hummer

www.hummerlimos.com.au

PLANTING GUIDE – LOREN & ROD'S BACKYARD

Overall we went with some strong green and purple coloured foliage plants (Lorens' favourite colour is purple and we wanted to match the purple feature wall inside the converted shed). We also included some white potted colour for pots to help create a 'wedding feeling'. Also some white Camellia Sasanquas which was still in reasonable flower at the time of shooting the episode

Strobilanthes anisophyllus- great purple foliage, and spot flowering

Gardenia augusta 'Florida'- odd spot flowers

Pittosporum 'Creme de Mint' - newish variegated form of Pittosporum 'Miss Muffet'

Camellia sasanqua 'Setsugekka' - flowers

Camellia hybrid 'Bogong Snow'- to be used as a feature- beautiful, just coming into flower now

Elaeagnus macrophylla

Dodonea purpurea- look hot, great purple foliage

Gordonia axillaris- in flower, looks good

Phormium tenax 'Purple Haze' - awesome, deep purple strappy leaves

Correa pulchella 'Angel Tears'- newish Correa, really pretty white flowers, and in flower now

Waterhousia floribunda- semi advanced tree to screen the yard from the road

White pansies- in flower, very pretty

All plants and flowers supplied and delivered by Alpine Nurseries

www.alpinenurseries.com.au
